Client Feedback/Testimonial

Date : 06.01.2025

TO WHOMSEVER IT MAY CONCERN

We have been using the **REDF (Radial Edge Disc Filter) system**, installed on 15.11.2024, for our application of carbon removal. The system has proven to be highly effective, offering specific benefits such as efficiency, clarity, cost-effectiveness.

The back washable design has significantly reduced operational costs, labour requirements, and downtime. Its ability to provide clear filtration in a single pass has made it an indispensable part of our process.

We appreciate the innovative technology and reliable support provided by **SS Filters Pvt Ltd, Turbhe Navi Mumbai** and look forward to continued collaboration.
